**ABOUT CCRI**

We provide adults and children with clinical screening either

*in person at the location of the crisis,*

*in person at a community mental health center,*

*via phone,* or

*Telehealth Communication Software,*

in order to de-escalate the crisis and provide linkage to ongoing treatment and other resources.

**HOW IT WORKS**

Each call that is received via the CCRI Access Line will be directed to the appropriate triage clinician based on geographical location (region).

**PROGRAM GOALS**

Provide access and link patients to appropriate levels of care and divert from unnecessary hospitalizations and incarcerations.

Build partnerships with local law enforcement, hospitals, judges, community partners, and local mental health providers.

**WHEN IS IT AVAILABLE?**

Each region will be phased in. The local DMH centers are available for services to the community based on their current county of residence.
